SECTION II. FACILITY DESCRIPTION

Provide a brief description of the facility. Note that more detailed information pertaining to facility operations will be provided in the Operating Plan required under Section VII of this form.

(1)	The type of collection/storage/transfer activity(s):			
	☐	Transfer station	☒	Recycling center
	☒	Temporary stockpile(s)	☐	Other (specify):
(2)	Facility ownership (check one): ☐ publicly owned ☒ privately owned			
(3)	Facility service type: ☐ limited service area facility (i.e., will receive waste from only specified sources/locations) ☒ unlimited service area facility (i.e., will potentially receive waste from any source/location)			
(4)	Facility service area: Note: If the "facility service type," provided in response to (3) above, is a "limited service area facility," then identify the precise geographic area(s) and/or generator(s) that the facility shall be limited to serving. If the facility service type, as provided in response to (3) above, is an "unlimited service area facility," then identify the geographic region and/or generators the facility will most likely serve.			
	New England Region			
(5)	Type(s) of waste to be received by the facility (be specific):			
	All types of Recycleables, Metals, Plastics, Cardboard, Office Paper and Electronic Scrap			
(6)	Type(s) of waste to be prohibited by the facility (be specific):			
	See Attachement #1 Harding Metals Scrap Acceptance Guidlines			
(7)	Capacity for each of the following:			
	(a)	Storing non-recyclable waste: 100 tons or cubic yards		
	(b)	Storing unprocessed recyclable waste: 5000 tons or cubic yards		
	(c)	Storing processed (market ready) recyclable waste: 6500 tons or cubic yards		
	(d)	Collection rate: 300 tons or cubic yards per day on average annually		

(8) Identify other waste management activities at the site. Check all of the below which apply. If none apply, check here ☐ and go to Section III.

You must respond to this question to fulfill the reporting requirements in Env-Sw 1105.07(d) and (f). However, the information provided by your response shall not become part of any permit issued pursuant to this application; it is merely intended to identify whether other types of waste management activities, not covered by the requested permit, are or will be conducted at the subject site.

Therefore, if any of the below listed activities are or will be occurring at this site, place a check mark in the corresponding box and show the location of each such activity on the site plans prepared pursuant to Section VI of this form. Also, be certain the activities do not adversely affect the ability to properly manage the facility for which a permit is being sought.

Also note: Although the below listed activities do not require issuance of a solid waste management facility permit, other local, state or federal permits or approvals may apply. Contact the DES Public Information & Permitting Office [(603) 271-2975], if necessary, for assistance in determining permitting requirements.

(a) **ACTIVITIES INVOLVING WASTES THAT ARE NOT REGULATED AS SOLID WASTE (Ref. Env-Sw 101.03):**

- ☐ Management of yard waste (leaves, grass clippings, garden debris, and small or chipped branches)
- ☐ Burial of stumps at the waste generation site, which have been cut or uprooted from the site, at least 75 feet from any drinking water supply
- ☐ Operation of a "swap shop," collecting and distributing salvaged materials/items for reuse in-kind, pursuant to Env-Sw 1500, including:
  - ☐ Collection and distribution of non-hazardous paint for use as paint
  - ☐ Collection and distribution of other used furniture, equipment, clothing, etc. for reuse in-kind
  - ☐ Other (specify):
- ☐ Management of septage, as defined in RSA 485-A:2,IX-a, by a method not involving disposal with a solid waste
- ☐ Management of sludge as defined in RSA 485-A:2,XI-a, by a method not involving disposal with a solid waste
- ☐ Management of hazardous waste, as defined in RSA 147-A:2, as follows:
  - ☐ Collection of used oil for recycling
  - ☐ Collection of household hazardous waste
  - ☒ Collection of universal waste, as follows:

☒	Batteries	☐	Antifreeze	☐	Mercury containing lamps
☐	Pesticides	☐	Thermostats	☐	Mercury containing devices
☐	Other (specify):				

  - ☐ Operation of a permitted hazardous waste transfer facility (Provide permit #):
  - ☐ Operation of a permitted hazardous waste treatment, storage or disposal (TSD) facility (Provide permit #):
  - ☐ Other (specify):
- ☐ Management of solid or dissolved materials in irrigation return flows
- ☐ Management of municipal and industrial discharges which are point sources subject to permits under Section 402 of the Federal Water Pollution Control Act, as amended
- ☐ Management of radioactive materials as defined and regulated by the New Hampshire Rules for the Control of Radiation, He-P 2000 and He-P 4000

(b) **SOLID WASTE MANAGEMENT ACTIVITIES WHICH ARE PERMIT-EXEMPT, AS FOLLOWS:**

- ☐ Management of stumps by above-ground methods, not including composting, pursuant to Env-Sw 302.03(b)(6), as follows:
  - ☐ Temporary stockpiling until transfer off-site for further management
  - ☐ Chipping/shredding and use of resulting chips as fuel, mulch, animal bedding and/or composting bulking agent
- ☐ Collection, storage and transfer of the following:
  - ☐ Solid waste collected from highway rights-of-way by a local or state highway agency (note: permit exemption applies only if the collection site is owned/operated by the highway agency); [Ref. Env-Sw 408.07]
  - ☐ Concrete, brick, other inert masonry debris or asphalt [Ref. Env-Sw 302.03(b)(9)]
  - ☒ Processed (i.e., market ready, baled/packaged) select recyclables; (note: permit exemption applies only to select recyclables (i.e., paper, cardboard, glass, plastic, metals, textiles) which are received in a market ready condition); [Ref. Env-Sw 408.04]
- ☐ Open burning of clean wood, limited to brush and slash measuring ≤ 5 inches in diameter and clean, untreated wood with a cross-sectional area ≤ 24 square inches; (note: permit exemption applies only when a permit to stockpile the wood for burning is issued by the DES Air Resources Division and the district forest ranger/local fire authorities have issued a permit to kindle the wood, and when stockpiling conforms to Env-Sw 404.05); [Ref. Env-Sw 508.05]
- ☐ Collection and use of a processed select recyclable material to produce a waste-derived product certified pursuant to Env-Sw 1500; (identify the type of processed select recyclable:) and the type of certified waste-derived product:) [Ref. Env-Sw 508.06]
- ☐ Collection and use of a processed non-select recyclable material to produce a waste-derived product certified pursuant to Env-Sw 1503.04, Env-Sw 1503.05 or Env-Sw 1503.07; (Identify the type of processed non-select recyclable: and the type of certified waste-derived product:) [Ref. Env-Sw 508.07]
- ☐ Burial of animal carcasses pursuant to Env-Sw 810.07 or Env-Sw 810.08
- ☐ Landspreading wood ash pursuant to Env-Sw 1704

		☐	Conducting bench scale research and development projects pursuant to Env-Sw 302.03(b)(7)
		☐	Management of boiler slag from the combustion of coal, pursuant to Env-Sw 302.03(b)(8)
		☐	Burial of concrete, brick, other inert masonry debris or asphalt, as follows:
			☐ At the waste generation site pursuant to Env-Sw 810.04
			☐ From off-site locations pursuant to Env-Sw 302.03(b)(9)
	(c)	☐	Collection, storage and processing of wooden pallets and crates into wood chips, pursuant to Env-Sw 302.03(b)(10)
		☐	Management of a solid waste that has been formally declared by the generator, in accordance with Hazardous Waste Rule Env-Hw 502.01(c)(2), to be a hazardous waste, pursuant to Env-Sw 302.03(b)(5)
		☐	Other (specify: and provide rule cite: Env-Wm:)
