Reference: Type 1A Modification to Solid Waste Management Facility Permit, Bestway Disposal Services, 43 Industrial Drive, Belmont, NH

Dear Mr. Wheeler,

I am writing in regard to the expansion of the Bestway Disposal Service on Route #140. I understand the expansion is going include household waste including harmful liquids and waste that could impact the school district's primary water source. The Tilton and Northfield Water District provides water to our school district and I want to assure the health and safety of our children and employees with clean drinking water. We are opposed to the expansion of Bestway Disposal Service because it poses a high risk to our primary water source. Thank you for your attention to this matter.

Sincerely,

Tammy Davis

Dr. Tammy Davis
Superintendent
Winnisquam Regional School District
