Farm Tanks for the Underground Storage of Petroleum Products

Do you own an underground storage tank (UST) that has a capacity to store more than 110 gallons of **Motor Fuel** (gasoline, diesel, aviation, etc.)?

If the answer is YES, you should be aware that:

- You are required to register the tanks with the New Hampshire Department of Environmental Services (NHDES).
- You must be in compliance with Underground Storage Tank Rules (Env-Or 400).
- You must clean up all spills and leaks in accordance with Contaminated Site Management Rules (Env-Or 600).
- If determined eligible, the Oil Discharge and Disposal Cleanup Fund (ODDCF) will reimburse you for the cost of cleanup associated with a leaking UST.
- Please notify NHDES 14 days prior to closure.

For further information, please contact the NHDES Oil Remediation and Compliance Bureau at (603) 271-3899.

Disclaimer: Information contained in this fact sheet is current as of January 1, 2020. Statutory or regulatory changes that may occur after that date may cause part or all of the information to become invalid. If there are any questions concerning the current status of information, please contact NHDES at (603) 271-3899.
