														\$9,095,868

NOTES:

- 2023 CWSRF Amount equals the portion of the project that is anticipated to be initiated by January 2026 or as adjusted to not exceed available funds. CWSRF Amount and Principal Forgiveness (PF) may be adjusted based on project scope and readiness, and subject to availability of funds.
- 2023 CWSRF Amount assumes full eligibility.
- USDA financing award may preclude CWSRF financing due to limited funding availability.
- Ongoing outreach is performed to obtain project status and offer available funding to those lower on the list when applicable.
- Higher ranked projects may be bypassed in favor of lower ranked projects to ensure that funds available are utilized in a timely manner and that statutory and capitalization grant requirements are met.
- All projects proposed for funding will receive allocations from BIL (2023 Supplemental Capitalization Grant).
- Principal Forgiveness for Energy Audit Measure Implementation (EAMI) may be adjusted based on information provided during the scope approval process.
- Principal Forgiveness for Planning component shown on Wastewater Planning Project list.
- Affordability principal forgiveness will not be awarded in addition to the Planning and EAMI incentives.
