

# VLAP 2022 SCHEDULE AND JCLC OPERATIONS

*Note: Lakes utilizing the Colby Sawyer College (CSC)-Lake Sunapee Protective Association (LSPA) lab please check with Teriko MacConnell, CSC-LSPA Lab Manager, on operations specific to that laboratory.*

## JCLC SAMPLE DROP-OFF HOURS

**Mon-Thurs:** 8:30am-2:30pm

**Fri:** 9:00am-12:00pm

## VLAP BIOLOGIST VISITS

To “catch-up” with VLAP Biologist visits, an ambitious schedule has been developed for 2022. A total of 150 lakes are on the list to receive a biologist visit. Please review the **2022 Guide to VLAP Biologist Visits** for more information and to schedule your visit.

Returning in 2022, VLAP is offering *Virtual Biologist Visits*. If you do not want an in-person visit, or your lake is not on the list, consider scheduling a virtual visit. Please refer to the **2022 VLAP Guide to VLAP Virtual Biologist Visit**.

If we complete the ambitious biologist visit list, we will resume with lake names A-L receiving a biologist visit, in-person, starting in 2023.

You can schedule both your in-person and virtual visits using the [PICKTIME](#) scheduling software. Please refer to the Picktime User Guide 2022.

## MONTHLY SAMPLING MAY-SEPTEMBER

You can schedule your monthly sampling pickups and drop-offs via the [PICKTIME](#) scheduling software.

## JCLC MAXIMUM NUMBER OF VLAP LAKE DROP-OFFS/DAY: 8

## BACTERIA SAMPLES WILL BE ACCEPTED

## MONTHLY DATA REPORTS

*Lakes utilizing CSC-LSPA lab will continue to receive a data report from Teriko MacConnell. For all lakes utilizing the JCLC:*

Monthly data reports will be emailed to you; however, it will not include copies of your field data sheets. If you want copies of data sheets, you can make a copy prior to lab delivery. Monthly data reports can be expected within 4-6 weeks (or more) of sampling.
