

New Hampshire Water Well Contractor License Information

Introduction: A water well contractor license is required of any entity or individual engaged in well construction. Water well construction means any method, procedure or operation to obtain water from a well including drilling, digging, well development (including hydrofracturing or other methods), and well decommissioning. Licenses are issued by the NH Water Well Board to contractors and are specific to construction type.

Water Well Contractor License – Work Sheet

How To Apply:

- If you meet the professional requirements listed below, obtain an application from the NH Water Well Board (603) 271-1974.
- Completely fill out the application, include all requisite experience and company/corporate information.
- Submit the application to the NH Water Well Board at least 10 days prior to the next posted Board meeting date.
- A Water Well Contractor license does not authorize a company or individual to install, repair or maintain water well pumps.

Requirements:

- Experience: Applicants shall have a minimum three years of experience directly related to the type of license to be issued, one year shall be drilling in crystalline rocks of the Appalachian Region.
- Examination: Exams are required of all applicants and are specific to license type.
