Please return form to: NH Waste Management Division  
 Oil Remediation & Compliance Bureau  
 29 Hazen Drive; PO Box 95  
 Concord, NH 03302-0095

\*Env-Or 500 has been revised. As of January 1, 2012, new gas dispensing facilities are not required to install stage II vapor recovery systems. All existing systems must be decommissioned by December 22, 2015. Facilities that continue to use stage II recovery systems must continue to comply with the stage II requirements until the system has been decommissioned. Please contact DES at (603) 271-3899 with any questions.
