SUBJECT: ALLENSTOWN- Allenstown Transfer Station, 104 River Road;
Type IA Permit Modification Application, Permit #DPHS-SW-85-009; Ref.: WMD
Doc Log #s 15652, 15653, 15885 and 16046

Dear Mr. Allen:

The New Hampshire Department of Environmental Services, Waste Management Division (Department) has completed its review of the above-cited application to modify permit #DPHS-SW-85-009, increasing the facility's design capacity to 750 tons per day and a maximum weekly capacity of 3,000 tons. The facility's approved storage capacity increases from 500 to 750 tons.

In order to update the permit to be in compliance with existing solid waste rules, the Department has replaced the permit's terms and conditions.

The requested approval is herewith granted, per the enclosed Record of Permit Modification issued pursuant to RSA 149-M:9 and Part Env-Sw 315 of the New Hampshire Solid Waste Rules (Rules). Please review and comply with the terms and conditions provided in Section III of the approval and attach a copy to the subject permit to provide a record of this action.

If you have any questions concerning this permit modification, please contact me.

Sincerely,

Paul M. Gildersleeve, P.E.
Solid Waste Management Bureau
