SUBJECT: Allenstown- Allenstown Transfer Station, 104 River Road; Type IA Permit Modification Application, Permit # DPHS-SW-85-009; Ref.: WMD Doc Log #s 15652 and 15653

Dear Mr. Allen:

The New Hampshire Department of Environmental Services, Waste Management Division (Department) has completed a review of the above-cited Type IA permit modification application. In accordance with the requirements of the New Hampshire Solid Waste Rules (Rules), the following information must be provided to satisfy the provisions of Env-Sw 304.03 for a completeness determination.

1. The existing closure plan is included as a section in the Operation and Maintenance Plan. However, Env-Sw 1106.04 requires that the closure plan be submitted as a separate document. The closure plan must also include a closure cost estimate prepared in accordance with the criteria in Env-Sw 1403.02. The closure cost estimate must include the removal of waste to disposal destinations not owned by Casella Waste Management, Inc.

Please revise and resubmit both the Operation and Maintenance Plan and the Closure Plan.

2. Please provide the Department with copies of the signatures of all required notice of filing recipients as stated in Section IX of the Application.
3. Section III (3) of the Application requires that each permit condition that will require an amendment to effect the proposed modification and provide draft language for the same. Please provide draft language for any permit conditions that are proposed to be changed as a result of this modification.

Please address the above comments by submitting an electronic copy and one paper copy of the required information. Be certain to note the revision date on each replacement page. Continued review of your application will commence upon receipt of this information. Until the Department has completed its completeness and technical reviews, there may be additional comments. In the meantime, if you have any questions, please contact me.

Sincerely,

Wayne A. Wheeler, P.E.
