SUBJECT: NASHUA- Scrap Metals Inc., 571 South Main Street

Certified Waste Derived Product (CWDP) for Distribution and Use Permit Application, EnviroPave Paving Material, Applicant is Ansel Grandmaison, Prepared by SBR Environmental Inc., Ref.: WMD Doc Log # 2011700

Dear Mr. Grandmaison:

The New Hampshire Department of Environmental Services, Waste Management Division (Department) has completed a review of the above-cited CWDP permit application. In accordance with the requirements of the New Hampshire Solid Waste Rules (Rules), the following information must be provided to satisfy the provisions of Env-Sw 1500 for a completed application:

1. In Section I (1), the applicant's company name is not included. Also, in Section I(3) the applicant's email is not included. Please explain.
2. In Section I(6)(c), the principal business address does not include an address number. Please explain.
3. Section IV(1)(e) lists "roofers in region." Please list the specific region.
4. Section IV(2)(a) lists four product blends for EnviroPave. The screening level of 35.7 mg/kg for benzo(a)pyrene was calculated based on a maximum roofing content of 50% and a maximum fines of 15% (by weight) passing the 100 sieve. An additional maximum fines of 7% (by weight) passing the 200 sieve was added as an extra precaution. Please verify maximum percentages of the above-mentioned fines in your blends.
5. Page 3 of 5 of the Application is not included. Please explain.
6. Section IV (2) (c) refers to Attachment IV for the process flow diagrams and/or schematic diagrams. However, neither diagram can be found. Please explain.
7. Section II (3) mentions that EnviroPave will be used as pavement cap and cover on sites. Section IV(2)(a) mentions EnviroPave will be used as dust control and surface capping. Please define in more detail, in Attachment IV (1) (2) (A) or elsewhere, these and the other uses of EnviroPave.

8. Section VI states that the proposed cwdp may be used as dust control. Please explain.
9. Please provide a definition for surface coating material.
10. Please provide further explanation of how the material(s) would be used as a capping material.
11. In Attachment IV (1) (2) (F) (1), rule Env-WM 2700 is cited; however, this reference is an outdated rule reference. The new reference is Env-Sw 1000. Please revise this rule citation to match the current rule numbering.

Please address the above comments by submitting three copies of the required information. Be certain to note the revision date on each replacement page. Continued review of your application will commence upon receipt of this information.

Until the Department has completed its technical review, there may be additional comments. In the meantime, if you have any questions, please contact me.

Sincerely,

Paul M. Gildersleeve, P.E.
