Dear Ms. Gauthier:

As you know, a public hearing must be scheduled for the referenced permit application. Please arrange for a hearing location in Berlin for an evening at least 30 days after the notice of the hearing has been published in one or more local newspapers. After the location and time have been established, the Department will forward a notification to you for publication. In addition, the Department requests that you prepare a short presentation for the hearing describing the proposed project, including any impacts, and arrange to have the meeting room set up with the following:

1. A table and chairs, set up in front of the room, with capacity to seat a panel consisting of three Department personnel;
2. A podium with a public address system as appropriate for the size of the hearing room;
3. Appropriate seating for the public, based on anticipated attendance. The Department will provide a tape recorder to record the meeting.

Pursuant to Env-Sw 304.08 (m), the applicant shall pay for the cost if any, of:

1. Hiring interpreters for disabled persons, or providing other services when required to comply with the American with Disabilities Act (the Department will notify you if there are any requests for these services).
