

**Fats, Oil and Grease (FOG) Seminar  
Collection, Recycling, Disposal and Education**

**May 28, 2009  
NHDES Auditorium  
29 Hazen Drive, Concord, NH, 8 a.m. to 3 p.m.**

**Wastewater Operator Training Program 0.5 CEUs  
Solid Waste Operator Program – Continuing Education for Renewal**

This program will explore common areas of interest regarding fat, oil and grease (FOG) management to both solid waste facility operators and wastewater treatment plant operators. Issues surrounding both "brown grease" regulated in New Hampshire as septage and "yellow grease" regulated as a solid waste will be examined. The inter-relationship between solid waste management and wastewater treatment will be explored by examining a grease collection program that collects yellow grease and converts it to biodiesel. The result is less grease discharged to sewers helping to prevent sewer overflows. Other collection programs will also be examined, including recycling and rendering. Learn about technology that turns FOG into GOLD!

**Attendance is free; pre-registration requested.** We have room for up to 150 people. People who may be most interested in this workshop include:

- o Wastewater operators
- o Solid waste operators
- o Septage haulers
- o State restaurant inspectors and health officers

A key component of this training is vendor displays. Over two hours of time throughout the day will be available for attendees to view products and services offered by participating companies. For \$25, vendors may reserve a display table. Set-up time will be from 7:30 a.m. to 8 a.m.. Registration begins at 8 a.m. Vendor tables can be viewed by attendees for: 45 minutes during the morning registration, 30 minutes during morning break, and 1 hour during lunch.
