Annualized sewer user charges are based on a presumed residential water consumption / wastewater generation of 90,000 gallons (12,000 CF) per year, or 240 gallons/day. Communities reporting \$0.01 residential user charge (Hampton; Lincoln) employ an Ad Valorem user charge system; i.e. wastewater costs are applied to residential property tax. STATE AVERAGE is the average sewer user charge across NH communities, with highest/lowest values and Ad Valorem communities excluded. **BENCH MARK** value is 120% of Statewide Average value. Communities with residential sewer user charges in excess of the Benchmark value are potentially eligible for an additional 10% State Aid Grant funding for municipal water pollution control projects.
